

MATILDE VISINTIN

Student in Materials Engineering

CONTACTS

Phone: + 39 351 827 7666
Email: matilde.visintin@gmail.com
LinkedIn:
www.linkedin.com/in/matildevisintin
Address: Fiume Veneto (PN), Italy

LANGUAGES

Italian: Native
English: Advanced (C1)
Spanish: Elementary (A1)
German: Elementary (A1)

CERTIFICATIONS

English: C1 Advanced, Cambridge Assessment
First Aid Certification
BLS D Certification (Basic Life Support Defibrillation)

PROFILE

Final year Materials Engineering student at the University of Trieste, with a strong background in Chemistry and Biotechnology. Currently seeking a Master's program in Denmark to specialize in advanced materials design and innovative technological solutions, with a focus on integrating nanotechnology into high-performance industrial applications.

EDUCATION

Bachelor Degree in Materials Engineering

Trieste, 2023 - Present

Currently completing my Bachelor Degree in Materials Engineering at the University of Trieste (TS), Italy.

Practical Laboratory Experience:

- Metallurgy & Corrosion Lab: Conducted metallographic observations, sample preparation and analysis of degradation phenomena.
- Materials Science Lab: Characterization of material properties and performance testing of metals, optical analysis of Quantum Dots using UV-Visible spectroscopy.

Industrial Technical Institute Diploma

Cervignano del Friuli, 2018-2023

Diploma in Chemistry and Biotechnology at "ITsT Arturo Malignani" Industrial Technical Institute, Cervignano del Friuli (UD), Italy.

Specialized in chemical analysis, biotechnology, and laboratory techniques.

WORK EXPERIENCE

Waitress

Ai Gabbiani Restaurant - Venice (VE), Summer 2023 - Summer 2024

Responsibilities:

- Provided high-quality customer service and assistance in a fast-paced environment.
- Demonstrated strong problem-solving and multitasking skills during peak hours.

TECHNICAL SKILLS

- Analytical Instrumentation: Atomic Absorption Spectroscopy (AAS), Mass Spectrometry (MS), UV-Visible Spectroscopy, and Optical Microscopy.
- Laboratory Techniques:
 - Chemistry: Organic synthesis, analytical chemistry procedures, and spectrophotometry.
 - Materials: Metallographic sample preparation and corrosion analysis.
- Software & Programming:
 - MATLAB (Data analysis and numerical modelling)
 - 2D CAD software (AutoCAD)
 - Java (Fundamentals)
 - Microsoft Office Suite (Advanced Excel).

TRANSVERSAL SKILLS

- Technical Teamwork: Effective in collaborative environments to solve technical and operational challenges.
- Problem Solving: Focused on transitioning theoretical concepts into practical, efficient solutions.
- Adaptability: Quick to learn new tools and systems, with a focus on efficiency under stress.
